FEMA

April 1, 2005

Karen Knight, Chair
Seabrook Board of Selectmen
PO Box 456
Seabrook NH 03874

Dear Ms. Knight:

Thank you for the opportunity to review the Town of Seabrook's multi-hazard mitigation plan. The Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA) Region I has evaluated the plan for compliance with the interim final rule published in the Federal Register on February 26, 2002 (44 CFR Parts 201 and 206). We have determined that the plan satisfactorily meets all of the mandatory requirements set forth by these regulations except §201.6(c)(5), adoption by the local governing body.

As you are aware, Federal regulations require that a plan must include documentation of its formal adoption by the local governing body (i.e., Board of Selectmen). Accordingly, this letter reflects a conditional approval of the plan until we receive a copy of its signed and stamped adoption resolution, and with all of the blanks filled in (See *Documentation of the Planning Process* on the attached Plan Review Crosswalk). Once this adoption resolution has been received and deemed appropriate, FEMA Region I will send a formal letter of approval to you confirming Seabrook's eligibility to apply for mitigation project funding through FEMA's Pre-Disaster Mitigation Competitive (PDM-C) program, Hazard Mitigation Grant Program (HMGP), and Flood Mitigation Assistance (FMA) program. Along with a copy of the plan's adoption resolution, please also be sure to submit an electronic version of the plan to us at your earliest convenience. FEMA must upload complete, electronic versions of all plans into a national database used by the agency for future reference and recordkeeping. Acceptable electronic formats include a .doc or .pdf file and may be submitted to us on a CD.

Thank you for your continued dedication to public service demonstrated by preparing and adopting a strategy for reducing future disaster losses. Congratulations once again for achieving this milestone and ensuring a safer future for the residents of Seabrook. Should you have any questions, please do not hesitate to contact Steve Colman at (617) 832-4731 or Ivy Francis at (617) 832-4780.

Sincerely,

A handwritten signature in black ink that reads "Kevin M. Merli".

Kevin M. Merli, Director
Federal Insurance and Mitigation Division

Cc: Michael Poirier, State Hazard Mitigation Officer, NH Bureau of Emergency Management
David West, Regional Planner, Rockingham Planning Commission
